PERGAMON

ATMOSPHERIC ENVIRONMENT

SCOPE

The subject matter of papers published in *Atmospheric Environment* covers all aspects of the interaction of people and ecosystems with their atmospheric environment. This includes scientific, administrative, economic and political aspects of these interactions. The main aim of *Atmospheric Environment* is to provide a scientific understanding of the consequences of natural and human-induced perturbations on the Earth's atmosphere. Areas covered include but are not limited to air pollution research and its applications, air quality and its effects, dispersion and transport, deposition, biospheric-atmospheric exchange, global atmospheric chemistry, radiation and climate. Novel results based on experiments, theory and modelling of the atmosphere, extending from the local to global scales, are included. *Atmospheric Environment* publishes research and review papers, special issues and other invited and contributed columns:

New Directions A monthly column reporting on late-breaking, controversial, or speculative issues in all aspects of the atmospheric sciences. Editor: Dr W. Sturges, *Norwich, UK* (E-mail: new.directions@uea.ac.uk).

Fast Track Papers A route for rapid publication of manuscripts that are especially urgent.

Short Communications and Technical Notes Papers that cover topics which may be simpler in structure or of more limited interest, sometimes reporting unusual observations.

Millennial Review papers Authoritative reviews in the general field of air pollution.

Atmospheric Environment International A series of special issues placing air pollution research in a regional context. The following regions will be covered: Africa and Middle East, Asia, Australasia, Antarctica, Central and South America, North America, Eastern Europe, Western Europe.

Thirty issues of *Atmospheric Environment* are published annually.

Authors are referred to the Preparation of Papers guidelines, printed in every issue, for advice concerning the preparation of their manuscript. Submission of papers on disk is encouraged and the rapid publication of select and timely papers is also possible.

Contributions can be made to either of the Executive Editors listed below.

PROF. P. BRIMBLECOMBE *School of Environmental Sciences, University of East Anglia, Norwich NR4 7TJ, U.K. e-mail: atmos-env@uea.ac.uk*

DR H. B. SINGH *Earth System Science Division, MS 245-5, NASA Ames Research Center, Moffett Field, CA 94035, U.S.A.*

Published semi-monthly with extra issues in February, April, June, August, October and December

Publication information: *Atmospheric Environment* (ISSN 1352-2310). For 2000, Volume 34 is scheduled for publication. Subscription prices are available upon request from the Publisher or from the Regional Sales Office nearest you or from this journal's website (<http://www.elsevier.nl/locate/atmosenv>). Further information is available on this journal and other Elsevier Science products through Elsevier's website: (<http://www.elsevier.nl>). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.

JOURNAL PACKAGES

Money-saving ways
to buy journals such as...

Atmospheric Environment
Biochemical Pharmacology
Environmental Pollution
Life Sciences
Neuropharmacology
Neuroscience
Tetrahedron Letters
Trends in Pharmacological Sciences

Which libraries benefit?

Those libraries which take all the journals from a package will see an immediate benefit and saving. Libraries which take all but one of the journals may find that they can buy the missing title for a nominal amount.

Take advantage of these packages

Subscription Agents have been informed about these money-saving packages and are in a position to help librarians take advantage of the savings offered. Contact your nearest Regional Sales Office directly for more information and help.

DISPLAY ADVERTISING

PRESENT YOURSELF STRAIGHT TO YOUR MARKET

Display advertising provides an interface between the commercial market and the scientific community. Offering an ever expanding range of services to enable the commercial sector to open up communication channels with potential customers and increase sales, we aim to provide the best possible means at cost effective prices.

Using display advertising to promote your products or services can:

- ★ **Raise Market Awareness**
- ★ **Enhance Brand Reputation**
- ★ **Reach a Key Audience of Opinion Formers and Decision Makers**
- ★ **Provide Association with Leading Research Publications**
- ★ **Supply Exposure to International Readerships**

All Elsevier Science titles accept display advertising. For more information about how to promote your companies products or services in this, or any other journal please contact either of the addresses below.

COMMERCIAL REPRINTS

PUBLISH STRAIGHT TO YOUR MARKET

As a service to the commercial market we are able to offer you the opportunity to purchase **Commercial Reprints** enabling you to publish straight to you market.

Bulk reprints of a paper relating to your products or services can provide:

- ★ *a valuable tool* for communicating with your prospective clients via direct mailings, exhibition distribution or for use in product information releases.
- ★ *an instructive means* of informing scientists of the applications of your products.
- ★ *an educational medium* for assisting prospective buyers in understanding the full benefits of your product.
- ★ *a valuable source* of information for your customers at the same time as increasing their awareness of your name.

We are able to repackage papers for you to include company logos, advertising or further product information.

Any of the papers in this journal can be reprinted for your own commercial use. For more information please contact the address below.
